

Indra Smart PRO

Customer Quick Start Guide

Be at the forefront of EV charging with Indra's pioneering technology

Getting Started with your new Indra Smart PRO EV charger

Once your Smart PRO charger has been installed, you will need to download the Indra App from your phone's App store. Alternatively scan the QR code below and follow the instructions.

When requested please scan or enter the MAC address via the QR code located on the left hand side of the charger. Please note: in some instances it may take up to 48 hours for a newly installed charger to pair with the Indra App. Should you experience any difficulties, please contact support@indra.co.uk

Designed to assist you in getting the most out of your Smart PRO, the Indra App is intuitive to use and enables you to manage all the smart charging functionality of your PRO from the palm of your hand. Creating an account takes minutes and once signed in you will be guided through the initial set-up and details of the key smart features, including:

Smart Charging

Use the Indra App to set up a recurring charging schedule. Choose regular slots throughout the week, and the charger will automatically start charging during those times, as long as your EV is plugged in of course.

Solar Power

If you have solar panels installed at home, your charger can be set up to receive power from them. The charger will take any surplus solar power that's above 1.4kW not being used by your home, to charge your EV.

Charging History

View your charging history on the app, review your usage and check if you're charging at the most efficient time.

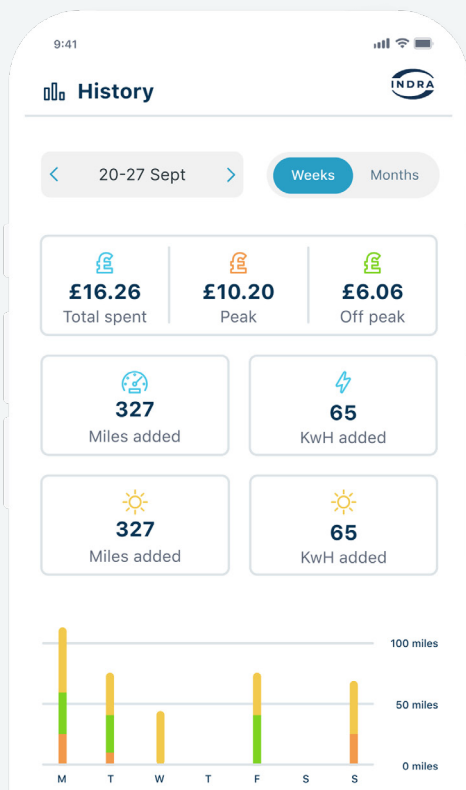

Using Boost

Plans changed? The Smart PRO Boost feature lets you temporarily override your schedule to get your car fully charged as soon as possible.

5-Year Warranty

Your Smart PRO charger comes with an industry leading 5-year manufacturer's warranty. You can find the full warranty statement at indra.co.uk/smartprowarranty
