Who is the warranty provided by?

3. The warranty is provided by us utilising the services of the charger manufacturer, Indra Renewable Technologies Limited (Indra).

How do I let you know there's a fault with the charger?

4. In the event of a fault being detected with the charger, you should call Indra's Customer Support on 01684 770631. You will need to quote the MAC address, the date of installation and brief description of the fault. Our support team will then help to diagnose and resolve the problem. Please note that we may determine that an in-person support visit may be necessary.

5. If you are not able to contact us, you should email the Indra customer support team at: support@indra.co.uk, quote the MAC address, the date of installation and a brief description of the fault. The Indra customer support team will then contact you to diagnose and resolve the issue on our behalf.

Will you need to inspect the charger?

6. If you notify us in accordance with clauses 4 or 5, it may be deemed necessary to arrange a visit to your property in order to inspect the charger and diagnose the issue. If a site visit is necessary, you will need to grant access to your property to us or the Indra representative in order to carry out the charger inspection. In some cases, it may be necessary for us or the Indra representative to return the charger to Indra for inspection. In this instance, Indra shall reimburse you for all reasonable removal and postage costs agreed with us. Indra will then be responsible for determining whether there is a fault with the charger.

Who pays for any repairs?

7. We will be liable for the cost of all parts and labour necessary for repairing faults that are covered by the warranty, plus associated delivery costs. We reserve the right to replace the charger with a new or reconditioned charger. If we determine that an issue or defect is not covered by this warranty, or if you do not keep an agreed appointment, we reserve the right to charge a reasonable fee for the visit to your property to inspect your charger. If the fault lies outside of the warranty, you may be issued with a quote to repair or replace the charger.

Where will we carry out repairs?

8. Where possible, faulty repairs will be carried out on site, however, we or the representative may determine that it is necessary to remove the charger for repairs off-site.

Will repairs and replacements be covered by this warranty?

9. Should we agree to repair or replace your charger during the warranty period, the repaired or replaced charger will continue to be covered under the original warranty timeline and the warranty period will not be extended.

10. Any charger (or parts) which is removed by us or the Indra representative will become our property (hold on behalf of Indra) with effect immediately on removal.
